

Children enrolled in pre-kindergarten or early childhood programs shall have the following immunizations (at the ages indicated) against: DTaP (diphtheria, pertussis, tetanus), IPV (polio), Hib (haemophilus influenza type b), MMR (measles, mumps, rubella), Hepatitis B, Hepatitis A, PCV (Pneumococcal), Varicella, and TB skin test with documented results.

Students in kindergarten through twelfth grade shall have the following vaccines, according to the scheduled listed.

1. Diphtheria/ Pertussis/ Tetanus (DTaP): Kindergarten entry, students required to have five doses- one of which must have been received on or after the fourth birthday. Or, if the fourth dose was administered on or after the fourth birthday, only four doses required. For students seven years of age or older are required to have at least three doses, provided at least one received on or after the fourth birthday.
2. Tetanus (Tdap) Booster: For students in seventh grade, one dose if at least five years have passed since the last dose of a tetanus-containing vaccine. If the last dose of a tetanus-containing vaccine was given less than five years previous, this dose will be due when five years has passed. For students in grades 8-12, one dose received 10 years after the last DTP/DTaP/Tdap dose
3. Polio (IPV): Kindergarten entry, students are required to have four doses, one of which must have been received on or after the fourth birthday. Or, if the third dose was administered on or after the fourth birthday, only three doses are required.
4. Measles, Mumps, Rubella (MMR): Kindergarten entry, students are required to have two doses with the first dose received on or after the first birthday.
5. Hepatitis B (Hep B): Students are required to have three doses no later than entry into kindergarten.
6. Varicella (chicken pox): Kindergarten and seventh grade students are required two doses received on or after the first birthday. (Two doses are required if the child was thirteen years old or older at the time the first dose of vaccine was given.) For all other grades, one dose on or after the first birthday or written statement from parent/guardian or physician showing date of illness.
7. Meningococcal Vaccine (MCV): Students in seventh grade are required to have one dose of the meningococcal vaccine.
8. Hepatitis A (Hep A): Kindergarten students are required to have two doses with the first dose received on or after the first birthday.
9. TB skin test with documented results (District requirement) – must be given after 2nd birthday and repeated if moving here from another state or country.
